the federalist later known as the federalist papers is a collection of 85 articles and essays written under the pseudonym publius by alexander hamilton james madison and john jay promoting the ratification of the united states constitution seventy seven

were published serially in the independent journal and the new york packet between october 1787 and august 1788 a compilation of these and eight others called the federalist a collection of essays written in favour of the new constitution as agreed upon by the federal convention september 17 1787 was published in two volumes in 1788 by j and a mclean the collection s original title was the federalist the title the federalist papers did not emerge until the 20th century alexander hamilton author of the majority of the federalist papers james madison hamilton s major collaborator later president of the united states john jay author of five of the federalist papers later became the first chief justice of the united states

laws have colonised most of the corners of political practice and now substantially determine the process and even the product of democracy yet analysis of these laws of politics has been hobbled by a limited set of theories about politics largely absent is the perspective of deliberative democracy a rising theme in political studies that seeks a more rational cooperative informed and truly democratic politics legal and political scholarship often view each other in reductive terms this book breaks through such caricatures to provide the first full length examination of whether and how the law of politics can match deliberative democratic ideals essential reading for those interested in either law or politics the book presents a challenging critique of laws governing electoral politics in the english speaking world judges often act as spoilers vetoing or naively reshaping schemes meant to enhance deliberation this pattern testifies to deliberation s weak penetration into legal consciousness it is also a fault of deliberative democracy scholarship itself which says little about how deliberation connects with the actual practice of law superficially the law of politics and deliberative democracy appear starkly incompatible yet after laying out this critique the law of deliberative democracy considers prospects for reform the book contends that the conflict between law and public deliberation is not inevitable it results from judicial and legislative choices an extended original analysis demonstrates how lawyers and deliberativists can engage with each other to bridge their two solitudes

what is the president congress and the supreme court really allowed to do this unique and handy guide includes the documents that guide our government annotated with accessible explanations from one of america s most esteemed constitutional scholars known across the country for his appearance on the daily show with jon stewart professor richard beeman is one of the nation s foremost experts on the united states constitution in this book he has produced what every american should have a compact fully annotated copy of the declaration of independence the constitution and amendments all in their entirety a marvel of accessibility and erudition the guide also features a history of the making of the constitution with excerpts from the federalist papers and a look at crucial supreme court cases that reminds us that the meaning of many of the specific provisions of the constitution has changed over time excellent valuable and judicious jill lepore the new yorker

this book examines the use of presidential power during the war on terror justin deplato joins the debate on whether the constitution matters in determining how each branch of the federal government should use its power to combat the war on terror the actions and words of presidents george w bush and barack obama are examined deplato s findings support the theory that executives use their own prerogative in determining what emergency powers are and how to use them according to deplato the presidents argue that their powers are implied in article ii of the constitution not expressed this conclusion renders the constitution meaningless in times of crisis the author reveals that presidents are becoming increasingly cavalier and that the nation should consider adopting an amendment to the constitution to proffer expressed executive emergency powers

this book describes momentous events in the american and french revolutions the american revolutionaries were nationalist patriots who wanted independence from great britain and to create a new nation based on the principles of classical liberalism and natural rights theory their goal was the attainment of life liberty and the pursuit of happiness inherent in the god given or nature derived rights of free men they did not seek to overturn the basic institutions of society as eventually the french revolutionists did when they destroyed churches desecrated tombs and even renamed the months of the year creating a new revolutionary calendar the french revolutionists adopted the revolutionary slogan liberté Égalité fraternité but they did not grasp the fact that the leveling of society was incompatible with liberty and regarding fraternity they did not mean the brotherhood of all men because the nobility and common citizens who did not hold the purest aims of jacobin ideology were exterminated

hoisted by their own petards

from one of the leading intellectuals of the digital age the digital republic is the definitive guide to the great political question of our time how can freedom and democracy survive in a world of powerful digital technologies a financial times book to read in 2022 not long ago the tech industry was widely admired and the internet was regarded as a tonic for freedom and democracy not anymore every day the headlines blaze with reports of racist algorithms data leaks and social media platforms festering with falsehood and hate in the digital republic acclaimed author jamie susskind argues that these problems are not the fault of a few bad apples at the top of the industry they are the result of our failure to govern technology properly the digital republic charts a new course it offers a plan for the digital age new legal standards new public bodies and institutions new duties on platforms new rights and regulators new codes of conduct for people in the tech industry inspired by the great political essays of the past and steeped in the traditions of republican thought it offers a vision of a different type of society a digital republic in which human and technological flourishing go hand in hand

the european project has within only 52 years achieved a surprising momentum and the european union is now approaching full statehood the convention on the future of europe has finished its work and handed over a proposal for a constitutional treaty to the heads of state and government of the eu it is therefore the ideal time to present an integrated analysis of what appears to be the emerging european state this key volume therefore discusses the central questions and concepts within the field of european studies which include federalism the relationship between statehood and constitution integration and constitution the regions in the new europe and the eu as an international actor these discussions are then developed and analyzed in relation to the draft constitution timely and insightful the volume is suitable for courses on european integration federalism and international politics

over the course of the last century scholars have furiously debated four questions concerning the founders and their act of creation were the framers motivated by their economic interests how democratic was the framers constitution should we interpret the founding using philosophical or strictly historical approaches what traditions of political thought were most important to the framers in understanding the founding the crucial questions alan gibson examines the preconceptions that scholars bring to these questions explores the deepest sources of scholars disagreements over them and suggests new and thoughtful lines of interpretation and inquiry building on his previous work interpreting the founding which offers a synoptic overview of the competing perspectives that have informed modern scholarship on the founders

in analyzing the debates between the federalists and the antifederalists mcwilliams gibbons and their contributors break sharply with interpretations of the founding of america as either the work of pure pragmatists or as the institutionalization of class interests this study of the very nature of modern representative democracy explains past and present dilemmas and contradictions in terms of federalist and antifederalist views this examination of the political theory of the american founding deals with differing beliefs about pluralist interests and political compromise human nature the public good and the public sphere the relationship between polity and economy the role of religion in politics and political traditions

searching for common threads in these five presidencies landy and milkis enable us to better understand both the possibilities and the limitations of the office book jacket

for students of the early american republic james madison has long been something of a riddle the member of the founding generation whose actions and thought most stubbornly resist easy summary the staunchest of federalists in the 1780s madison would turn on his former allies shortly thereafter renouncing their expansive nationalism as a threat to the constitution and to popular government in a study that combines penetrating textual analysis with deep historical awareness gary rosen stakes out important new ground by showing the philosophical consistency in madison s long and controversial public life the key he argues is madison s profound originality as a student of the social compact the venerable liberal idea into which he introduced several novel and seemingly illiberal principles foremost among these was the need for founding to be the work of an elite few for madison prior accounts of the social compact in their eagerness to establish the proper ends of government provided a hopelessly naive account of its origin as he saw it the federal convention of 1787 was an opportunity for those of outstanding prudence understood in its fullest aristotelian sense to do for the people what they could not do for themselves this troublesome reliance on the few was balanced rosen contends by madison s commitment to republicanism as an end in itself a conclusion that he likewise drew from the social compact accommodating the proud political claims that his philosophical predecessors had failed to recognize rosen goes on to show how madison s idiosyncratic understanding of the social compact illuminates his differences not only with hamilton but with jefferson as well both men madison feared were too ready to resort to original principles in coming to terms with the constitution putting at risk the fragile achievement of the founding in their determination to invoke respectively the claims of the few and the many as american compact persuasively concludes madison s ideas on the origin and aims of the constitution are not just of historical interest they carry crucial lessons for our own day and speak directly to current disputes over diversity constitutional interpretation the fate of federalism and the possibilities and limits of american citizenship

no one has hitherto had the breadth of imagination and intellectual boldness to describe and analyse government throughout recorded history and throughout the world this unique study of government is the culmination of the work of the late s e finer one of the leading political scientists of the twentieth century ranging over 5 000 years from the sumerian city state to the modern european nation state five themes emerge state building military formats belief systems social stratification and timespan the three volumes examine both representative and exceptional polities and focus on political elites of different types empires monarchies and the modern state books four and five opens with tokugawa japan and thence reviews the evidence of ch ing ottoman and mughal empires before turning to facets of the re creation modernization and transplantation of the european state model it concludes with the synoptic review of pathways to the modern state professor finer s cogent descriptive analysis offers both an invaluable reference resource and an exhilarating journey across time and space
