David Scott Diffrient analyzes the series' contextual issues such as its creation, reception, and circulation, as well as textual issues like its formal innovations, narrative strategies, and themes. While numerous episode summaries, cast interviews, trivia books, and even recipe guides have been inspired by *M A S H*, only one other scholarly study of the series exists. Diffrient breaks new ground by fully addressing the wealth of complexities and contradictions in the series and exploring how they are rooted in the cultural ethos of the Vietnam War era. He examines the origins of *M A S H* and the history surrounding its original broadcast, eventual syndication, and its reception. He unpacks its narrative strategies, thematic motifs, and questions of identity and identification. In particular, Diffrient explores how the series was able to transcend the traditional boundaries of the sitcom and tackle issues like racial injustices, gender biases, bureaucratic mismanagement, and military snafus. In his exhaustive analysis, Diffrient draws extensively on archival materials, including original scripts, memos, and personal correspondence of the show's writers. He also considers the show's links to antiwar fiction and its influential and critically overlooked representation of Koreans and the Korean War students and teachers. Of film and television studies, as well as readers interested in *M A S H*, will enjoy this installment in the *TV Milestones* series.

As chaplain for the US Army's 102nd Evacuation Hospital in the European Theater, Renwick C. Kennedy went to those who knew him, witnessed great courage, extreme talent, and many lives snatched from the precipice of death, all under the most trying conditions. He also observed drug and alcohol abuse, prejudice, narrow-mindedness, and chronic depression. What he saw, he chronicled in his journal, and what he wrote, he processed with an intellectual and ethical rigor born of his remarkably sophisticated worldview and his deeply held Christian faith. With Kennedy's war diaries and postwar articles published in *Christian Century* and *Time* magazines in front of him, historian Tennant McWilliams spent a year retracing every step, every turn, every location of the 102nd in wartime France, Belgium, Luxembourg, and Germany, compiling rich detail on this episode in Kennedy's life. McWilliams's interviews with citizens of France and Luxembourg who recall the 102nd further revealed local people's reactions to the Army hospital that illuminated both Kennedy's severe criticism and his enduring praise for evac life. The result is a candid view of what went on in the World War II evac hospitals, with a nuanced and gritty style. The chaplain's conflict shatters the self-interested and sometimes sentimental images of evacs held by some among the medical community. This complex and compelling observation of doctors practicing war zone medicine in World War II will hold great appeal for readers of military and medical history, as well as those interested in the socio-cultural, ethical, and religious implications of war and military service.
